---

**Bilingual Information Technology Professional** recognized for strong interpersonal skills, a passion for technology, and the desire to learn and engage with cross-functional business and technical teams.

## TECHNICAL SKILLS

Java, HTML, CSS, JavaScript, PostgreSQL, Spring Boot, IntelliJ, Unit Testing (JUnit), Vue.js, E/R diagrams, Responsive Design, Integration Testing, Git, Visual Studio, PlanSwift, OnScreen Takeoff

## PROJECTS

### Vending Machine Application

Designed and implemented a command line vending machine program utilizing Java and Object-Oriented Programming principles. Levered file I/O to efficiently manage inventory, track user input, generate coin-based change, and maintain a comprehensive input log.

### BMI Calculator Application

Collaboratively developed a Java-based BMI (Body Mass Index) calculator with personalized body weight recommendations for the user using Object-Oriented Programming and file I/O.

### Mobile Payment Service Application

Built complete server-client money transfer application similar to Venmo, using MVC pattern and RESTful APIs. Server-side is powered by Spring Framework and incorporates PostgreSQL

## EDUCATION

### Tech Elevator

May 2023 -Present

Currently attending a 14-week full-stack coding bootcamp learning how to create dynamic web-based software systems using Java providing 800+ hours of development education and application.

### University of Maryland Global Campus - Adelphi, MD

December 2023

*Bachelor of Science (BS), Business Administration*

### Radford University - Radford, VA

December 2013

*65 Credits Toward a Bachelor of Science in Biology*

## PROFESSIONAL EXPERIENCE

### VPG Construction - Alexandria, VA

October 2021 – Present

*Construction Estimator/Project Manager*

- Successfully completed a total of 202 different commercial construction projects within specified time requirements.
- Implemented and led a company-wide green initiative to minimize paper consumption, resulting in substantial annual savings of \$20,000.
- Led the full development lifecycle for the sourcing, selection, and implementation of a new internal office messaging solution.
- Analyzed and estimated project changes and prepared change order packages to ensure alignment with scope/requirements.
- Maintained and updated a database of files and working documents for cross-functional business and leadership use.
- Prepared estimates by calculating complete takeoff of scope of work and entered into a computer system.
- Reviewed proposal specifications and drawings to determine scope of work and required contents of estimate.

### TSG Commercial Construction - Alexandria, VA

May 2011 – October 2021

*Construction Laborer; Delivery Driver; Foreman*

- Played a pivotal role in demolition, framing, site maintenance, clean-up, materials transport, and other critical projects.
- Effectively managed a team of 15 associates at various job sites, providing coaching, training, mentoring, and development opportunities.
- Implemented and utilized key performance indicators (KPIs) to measure and assess project progress, such as project completion percentage, adherence to budget, and quality standards.
